power unit features

what makes it SMART

- 1. heavy-duty steel body**
Solid steel outer shell withstands powerful suction and withstands normal wear and tear
- 2. powder coat paint**
Resists rust and corrosion for life
- 3. permanent self-cleaning dual filter**
dacron anti-static layer "sheds" debris when unit is shut off
polyester layer ensures maximum filtration (-98% at 2 microns)
no venting required
no filters to wash or replace — ever
- 4. built-in utility inlet**
convenient built-in inlet for vacuuming garage or basement surrounding unit
- 5. plastic dirt receptacle**
light, scratch- and dent-resistant — no risk of rusting
